

# GUARANTEED BUYBACK.

## Contract & Information

In a buyback you purchase a vehicle with a fixed buyback price, at the end of your travels you sell back the vehicle for the price discussed prior to your adventure.

# HOW DOES IT WORK?

By now you probably realised it is extremely hard to register and insure a vehicle in Europe, then, renting is way too expensive and even when you bypass the insurance and rego, you still need to sell the vehicle after your holiday. The Buyback is the ultimate middle way between renting, and purchasing a vehicle.

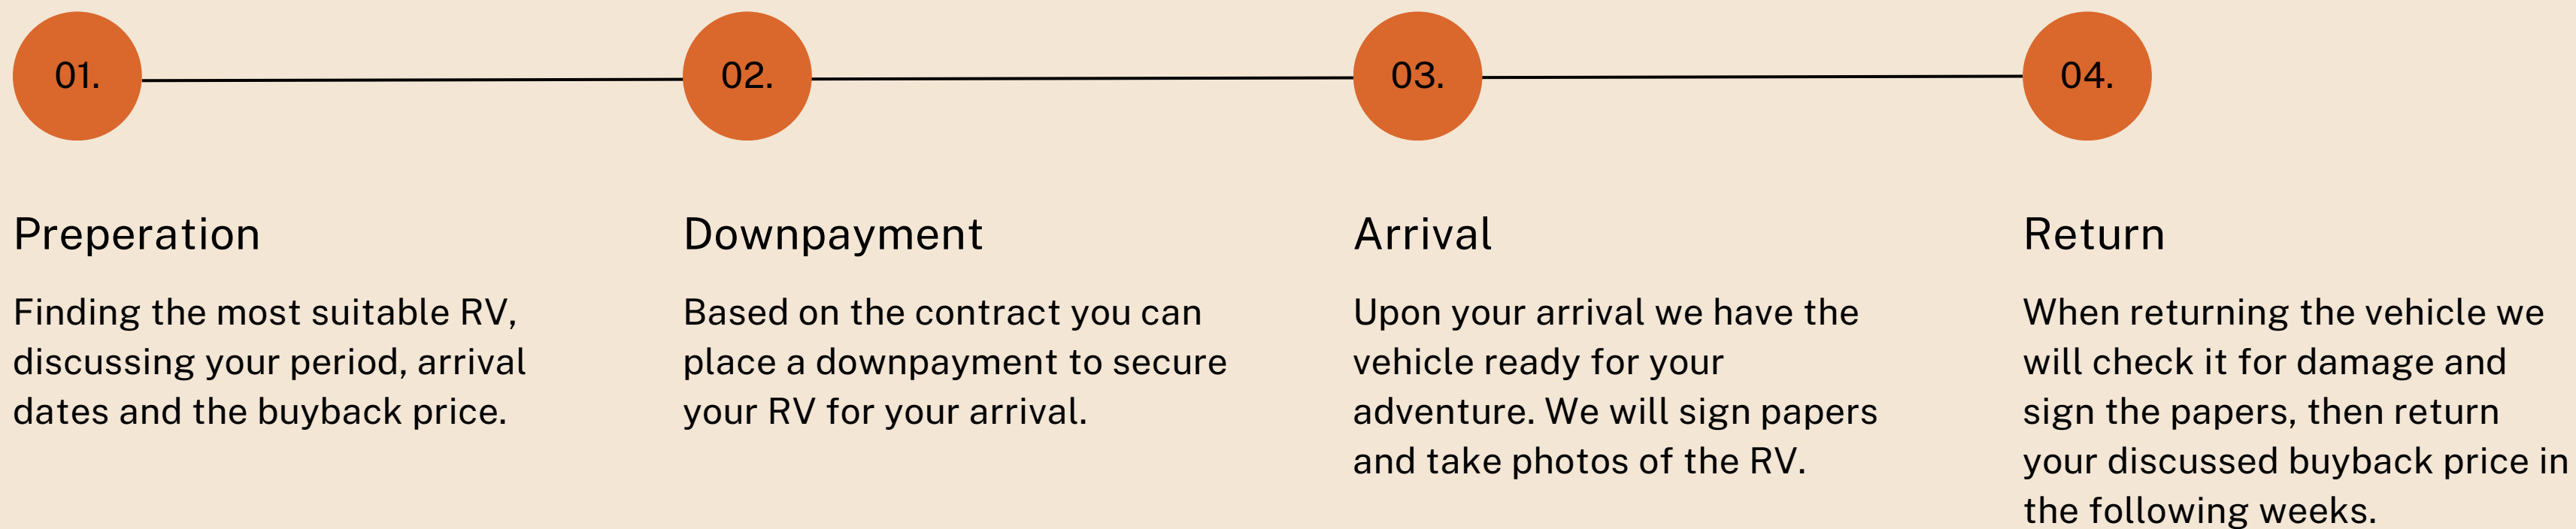

## How does it work?

- You purchase an RV through us with a guaranteed buyback price.
- We will register and insure the vehicle. It will be registered in our company name while the costs will be forwarded to you.
- Before your arrival, the vehicle will be checked, serviced and ready for your journey.
- You start your travels with your own vehicle.
- During your travels you are liable for the vehicle however due to mutual benefits tend to discuss when problems occur.
- When you return the vehicle we expect to get it back as you received it from us.
- Damages will be deducted of the buyback price.
- When everything is in order, we sign the papers and return the buyback price in the following weeks.

# PROGRAM TIMELINE

This is a rough sketch of our program.

# OWNING A VEHICLE

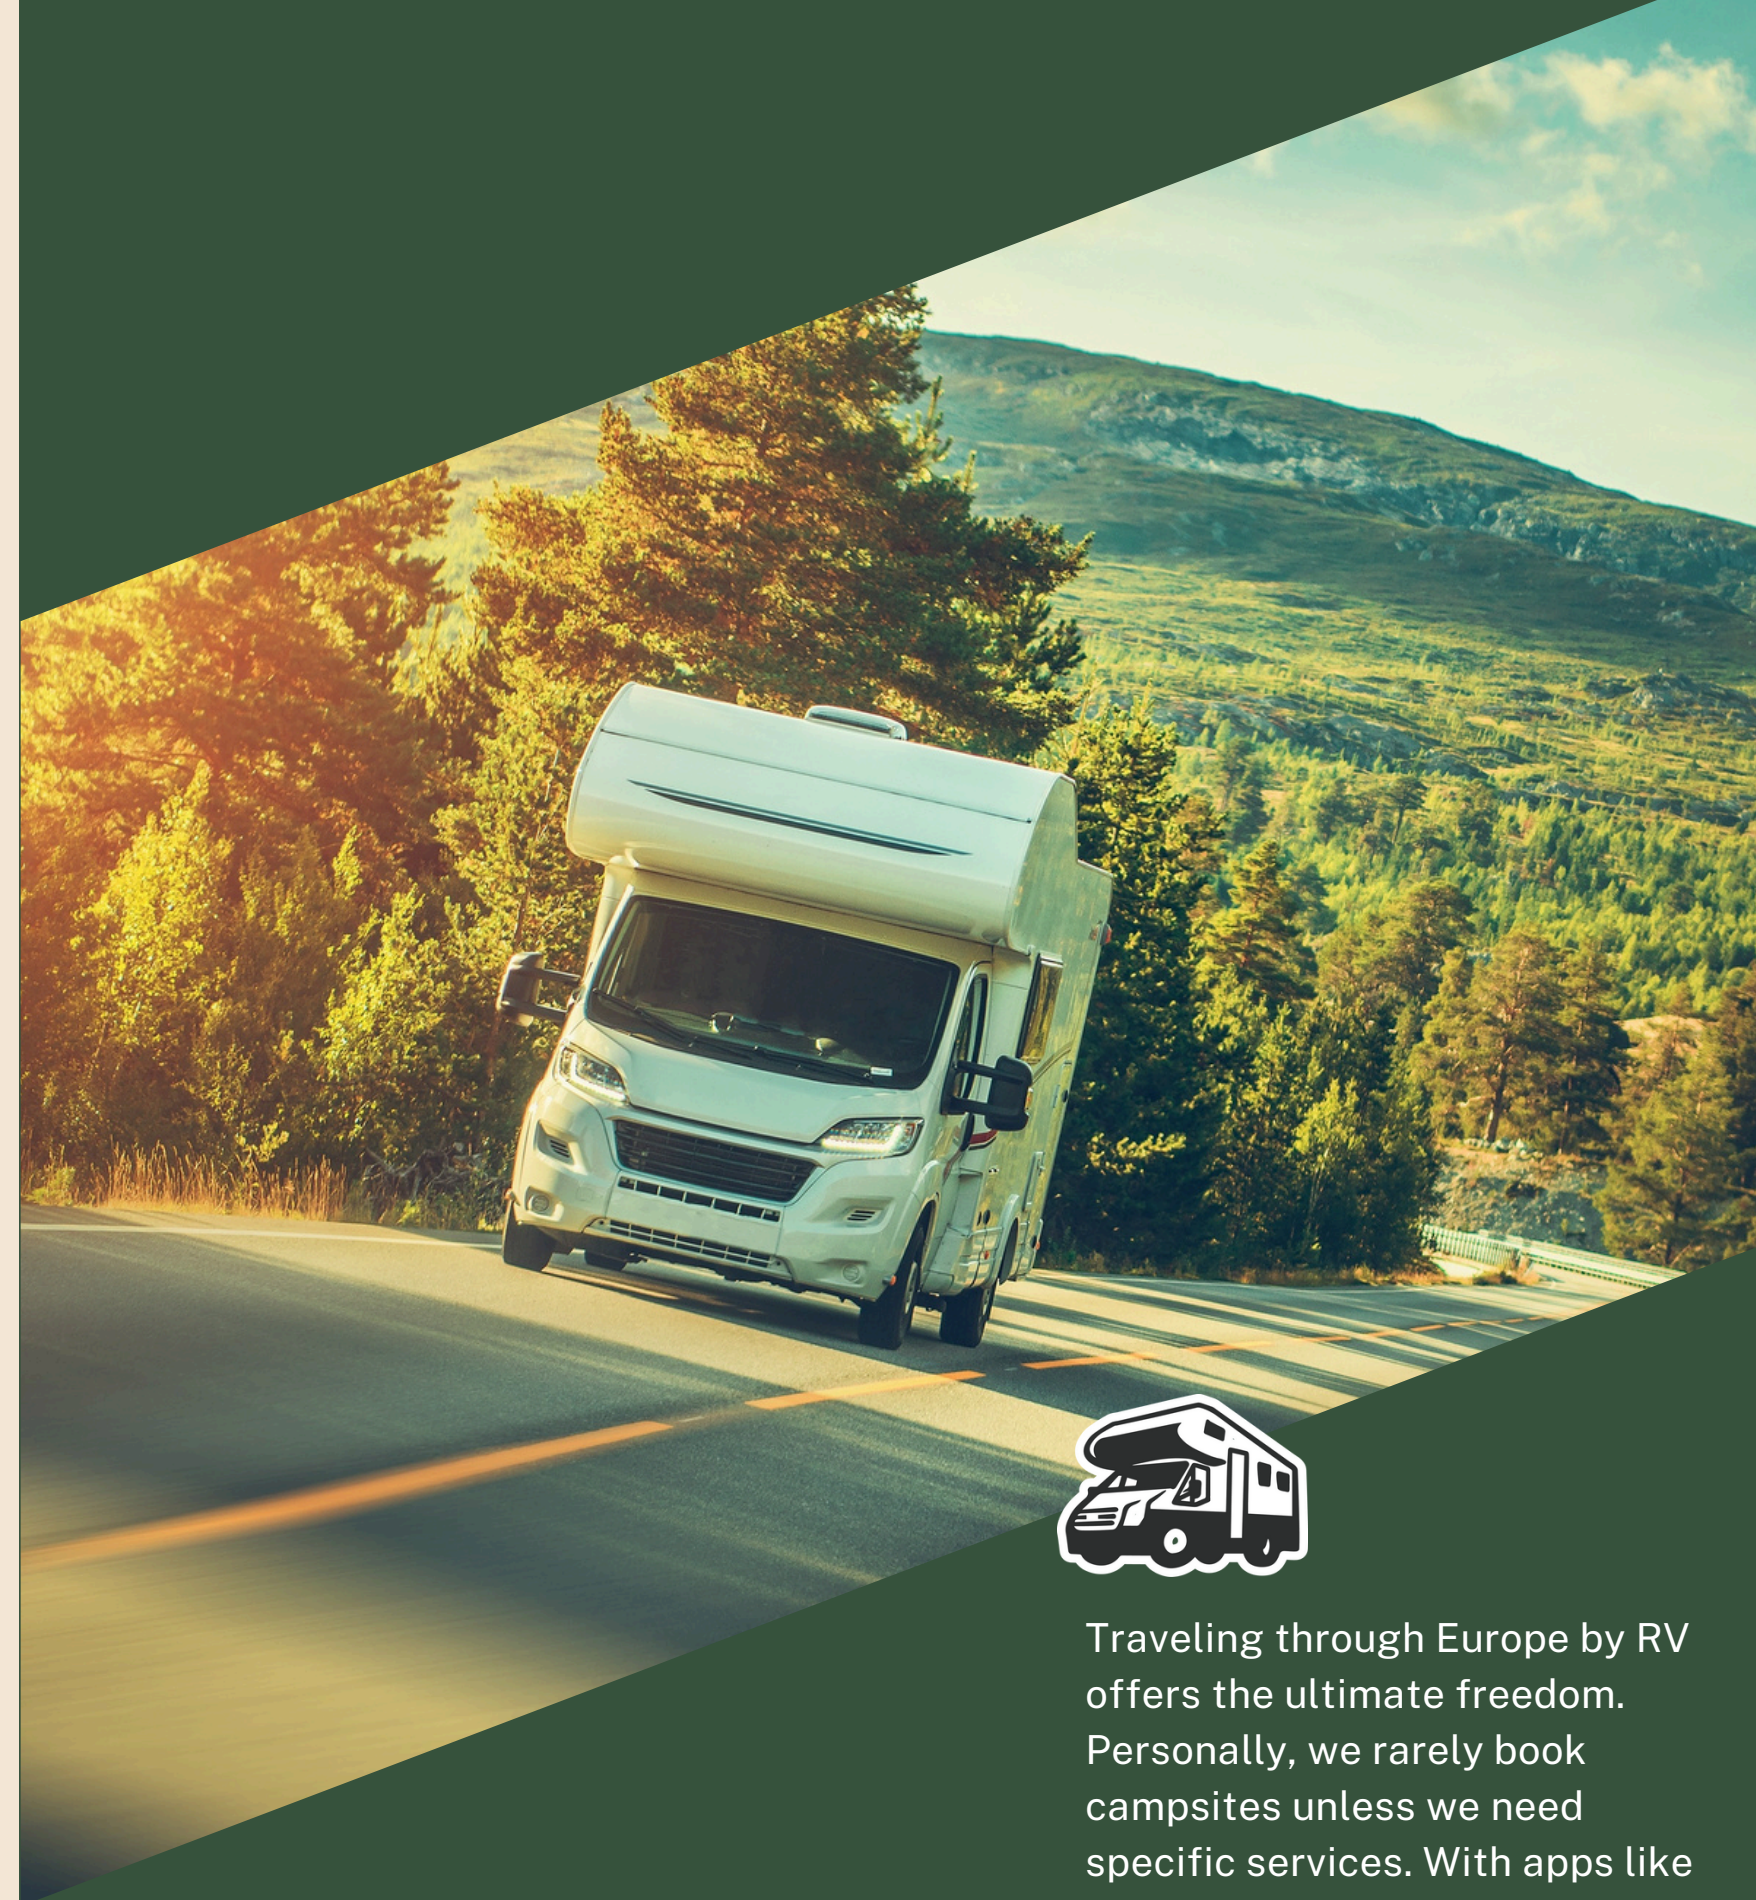

The vehicle will be registered on the Europe-Roadtrip.com company.

## Liability

During your road trip, you are fully responsible for the vehicle, just as if you had purchased it in your own country. Most vehicles are sold without a warranty, making you the acting owner throughout the entire trip.

## Restrictions

The only contractual restrictions are a flexible mileage limit tailored to your rental period and vehicle, and honoring any agreed-upon buyback arrangement if discussed.

Traveling through Europe by RV offers the ultimate freedom. Personally, we rarely book campsites unless we need specific services. With apps like Park4Night, you can easily find opportunities to free camp all across Europe!

# TERMS & CONDITIONS

Mediation contract between you (buyer) and Harro (mediator)

## Contract

### Buyer Responsibilities and Liability

Upon purchase, the buyer assumes full responsibility for the vehicle as its owner. This includes liability for all maintenance, repairs, damages, and issues during the trip unless a warranty is purchased. The seller is not responsible for any incidents, damages, or problems after the vehicle is delivered to the buyer.

**Buyback:** If a buyback price is agreed upon, the vehicle must be returned in the same or similar condition as upon delivery. Any damages, issues, or problems will be deducted from the buyback price. The buyback price applies only for the agreed period; early or late returns may incur additional costs unless otherwise discussed with the seller.

**Mileage Limit:** The contract includes a kilometer limit based on the vehicle's service schedule. Additional mileage must be purchased or approved by the seller in advance.

**Down Payment Policy:** The down payment is non-refundable and used to secure and service the vehicle. However, with prior agreement, it may be applied to future rental periods if the trip is canceled.

**Vehicle Condition and Acceptance:** The buyer is responsible for inspecting and accepting the vehicle upon delivery. It is the buyer's duty to ensure the vehicle meets their standards.

**Repurchase Price:** The repurchase price will be based on the agreed buyback amount, minus any overdue payments, damages, fines, or other costs incurred by the buyer.

**Insurance and Fines:** Insurance claims are subject to a €2,000 excess per damage. Any fines or violation tickets will incur a €35 administration fee and will be invoiced separately.

**Registration Details:** The vehicle is registered under the seller's company: either Camperfun GmbH in Germany or Europe-Roadtrip.com.

By starting the program and transferring a deposit, you agree to these terms and conditions.

## What happens when i have multiple fines?

When a fine comes in we pay the fine and send you an invoice including administration costs. When we pay multiple at once, we maintain the same administration fee.

# ER WARRANTY

Warrantee can be bought for € 1400,- prior to departure.

## Coverage

The warranty is limited to specific parts of the vehicle:

- Failures of the engine or its moving components, such as a timing belt.
- Factory-installed equipment, including the fridge, boiler, heating system, water pump, frost protection system, charger, or control panel.

The warranty does not cover:

- Consumable parts subject to wear and tear or improper use, such as brakes, tires, filters, or similar components.
- Add-ons or manually used parts, like curtains, taps, or hatches.

Buyers are fully responsible for proper use and regular maintenance of consumable items like brakes and tires. Damage resulting from misuse, neglect, or failure to maintain the vehicle properly will not be covered under the warranty.

For clarity on items included in APK (Netherlands) or TÜV (Germany) inspections, buyers are encouraged to research these standards online or ask us specific questions directly.

## Restrictions

The warranty must be purchased prior to departure and is valid for either 3,500 km or three months from the departure date, whichever comes first. Warranty repairs can be carried out at a Europe-Roadtrip.com-approved garage or another location, with prior approval. The customer must always discuss costs and warranty coverage with the warranty provider in advance. Fixed prices and quotes will serve as references for reimbursement of warranty repairs.

The customer is responsible for avoiding overcharges ("rip-offs") and must submit invoices for pre-approved warranty repairs to claim a refund. Payment for the warranty is required upfront.

Invoices must be issued in the company's name and sent digitally to [info@europe-roadtrip.com](mailto:info@europe-roadtrip.com). The warranty does not cover towing, hotel costs, or differences in travel periods. It is the responsibility of the warranty holder to ensure the vehicle is safely secured, and any additional damage resulting from incidents will not be covered under the warranty. For any issues not addressed in this document, the warranty holder is expected to discuss them with Europe-Roadtrip.com in a spirit of good business relations between buyer and seller.

Owning a vehicle means you're responsible for maintenance, repairs, and damages, even at the start of your travels without a warranty. We ensure the vehicle is serviced and prepared for your trip, but accidents can happen, and we can't guarantee a trouble-free journey

# EXTRA'S ADD ONS

# GOOD TO KNOW

01.

## Liability

You are the owner of the vehicle, which means that you are responsible, just like if you would buy and own a car in your home country.

02.

## Roadside Assistance

Unfortunately there are no Dutch companies that offer roadside assistance, we try to help in emergencies but we do expect a certain self-sustainability

03.

## Warrantee

Without warrantee we can not financially help you with certain problems, even when they occur close after the start of your travels.

04.

## Damage

Damages will be deducted of the buyback price, keep in mind we bring it to a dutch damage repair shop, and they might end up more expensive then the quote you will get on the road.

Let us know any other questions you might have!

# BANK DETAILS

Most of our customers use Wise or a transfer application online. Keep in mind the average time for an overseas bank transfer is 2 or 3 days.
